

MetalForming LIVE 2024

Be a part of this unique, exciting virtual series, now in its third year, as industry experts discuss important metal forming challenges and solutions. In 2024, this three-part, interactive webinar series features industry experts and dives deep into end-of-line automation; how newer, stronger and lighter materials affect press-line equipment; and press-brake selection and tooling optimization.

SCHEDULE OF EVENTS THREE-PART SERIES

JULY 10—End-of-Line Automation

Innovative and productive technology efficiently handles parts and scrap exiting presses to ease downstream operations, no matter the line speeds. Find out how.

JULY 24—Material Effects on Press-Line Equipment

The latest materials, stronger than ever, test press-line equipment like never before. Learn why, and learn how to equip and run lines to best process these materials.

AUGUST 6—Press Brake Selection & Tooling Optimization

Press brakes have come a long way, offering impressive precision and accuracy. Team these capabilities with effective tooling strategies to get the most out of bending operations.
