2021 SPONSORSHIP PACKAGES

The Metalforming Technology Webinar Series, conducted in Spanish, will arm senior Mexico business leaders and their key technical staff in Mexican facilities with the most current information on numerous technology trends in the metal forming industry.

PMA and *MetalForming Mexico* magazine are pleased to team up to help metal formers leverage growth in the Mexico market by hosting this webinar series, beginning on October 7 and ending on October 19. Topics include best practices for press-line setup and operation; ideal press- and die-maintenance practices and procedures; in-die processes such as tapping and clinching; quick-die-change technology and procedures; and best practices for computer modeling and simulation. The sessions, conducted in Spanish, will benefit company executives as well as engineers, technicians and operators.

- Press-Line Setup and Operation
- Pressroom Maintenance
- In-Die Operations
- Die Design and Simulation
- Quick Die Change
- and More
