

Hot Stamping Experience and Tech Tour

November 2-3, 2021
Ann Arbor, MI

Attendees of this unique event will dive deeply into hot stamping. They'll hear from numerous experts presenting on a variety of related topics, including process control, die design and development, and new material developments, as well as case-study presentations from automotive OEMs. Attendees also will tour the American Tooling Center hot-stamping facility—courtesy of Diversified Tooling Group—to view hot stamping in action, as well as other related processes including ve-axis laser cutting, the rm's A2LA-registered metallurgical lab, and large five-axis CNC machining centers.
